PROFESSIONAL EXPERIENCE

UI/UX Designer | CentoCode Technologies Pvt Ltd, Gurugram — Mar'25 – Till Date

- Designed end-to-end user interfaces for web/mobile apps from wireframes to polished designs using Figma.
- Created and maintained a design system to ensure consistency across the product and accelerate development.
- Collaborated directly with developers and founder to align design goals with business needs in an agile environment.
- Conducted usability testing and iterated designs based on real-user feedback and analytics.

CSA | Cogent E-services Ltd (Tata Play) — Noida Dec'23 – Mar'25

- Developed a strong understanding of user behaviour and problem-solving patterns, laying the foundation for a transition into UX research and design.
- Interacted with hundreds of users weekly, gathering insights into recurring pain points and unmet needs to inform better user experiences.
- Practiced active listening and empathy to understand customer frustrations, helping shape user-first solutions and improve product satisfaction.

PROJECT

Master Meal | Recipe Mobile App

- Designed mobile app UI in Figma, creating high-fidelity prototypes for a recipe and meal planning tool.
- Built scalable design system with features like personalized recipes, calendar planning and smart grocery lists.
- Improved accessibility and usability thorough testing.

Synergy Alignment Task Board

- Designed a centralized task platform to improve ownership, visibility, and communication for mid-sized cross-functional teams.
- Created clean dashboards and user-focused workflows, enhancing clarity and team alignment across departments.
- Integrated AI assistant to support task tracking and decision-making; prototypes built in Figma.
